PROFESSIONAL SUMMARY

Motivated Full-Stack Developer with 1+ years of hands-on experience building modern web applications. Skilled in both frontend and backend technologies, with 6 complete projects delivered. Currently pursuing a degree in History while actively coding and building digital solutions. Passionate about creating fast, responsive, and user-friendly web experiences.

TECHNICAL SKILLS

Category	Technologies
Frontend	HTML5, CSS3, JavaScript (ES6), React, EJS, jQuery, Bootstrap
Backend	Node.js, Express.js
Database	PostgreSQL
Tools & Others	Git, GitHub, REST APIs, VS Code, Render, Vercel, Netlify

WORK EXPERIENCE

Full-Stack Developer | Self-Taught / Freelance

2025 – Present

Built and deployed 6 complete websites from concept to production

Collaborated effectively with development teams on various projects

Achieved 90+ Lighthouse scores on all projects through performance optimization

Managed full project lifecycle including planning, development, testing, and deployment

Projects Completed

Project	Description	Tech Stack
Portfolio Website	Personal developer portfolio	React, CSS
E-commerce Platform	Product listing with cart functionality	EJS, Node.js, PostgreSQL
Admin Dashboard	Data visualization and analytics	React, Express, Chart.js
Business Landing Page	Responsive company website	HTML, CSS, jQuery
Task Management App	CRUD application with user auth	Node.js, Express, PostgreSQL
Blog Platform	Content management system	EJS, Node.js, Bootstrap

EDUCATION

University of Benin

Bachelor of Arts in History and International studies | 300 Level (Current)

Expected Graduation: 2027

Relevant coursework: Research & Analysis, Critical Thinking, Written Communication

Self-Taught Web Development

2025 – Present

Full-stack JavaScript development

Database design and management

Version control with Git/GitHub

Deployment and hosting on Render/Vercel

NOTABLE ACHIEVEMENTS

✅ Built 6 complete, production-ready websites

✅ Collaborated successfully on team-based development projects

✅ Mastered React + Node.js + PostgreSQL full-stack architecture

✅ Deployed live applications on Render and Vercel

✅ Balancing 300-level History degree with active software development

PORTFOLIO

Live Portfolio: devbynosa.onrender.com

GitHub: github.com/devbynosa

All 6 projects with live demos and source code available on request.

SOFT SKILLS

Problem-solving & debugging

Team collaboration

Time management (balancing school + coding)

Research & analytical thinking (from History studies)

Attention to detail

Fast learner & self-motivated

INTERESTING FACT

I'm a History student who codes. I study the past while building the future – one line of JavaScript at a time. 🚀
